

Principal's FY 2021 Budget Report

Tantasqua Regional High School (TRHS) is an institution that is committed to building a community of life-long learners and preparing students for their role as positive and active participants in a democracy. The administration and faculty of Tantasqua are committed to providing quality instruction to our students while maintaining a positive learning community. TRHS continues to have no user fees, and has an incredible amount of extracurricular offerings in athletics, performing arts, and student groups. Data supports the school's emphasis on student participation in these activities, as students are more likely to connect with a mentor that can assist them as they mature and value their studies. Students have multiple support systems available to them including the Pathways & Drive programs for special needs students, the academic monitoring of students by guidance counselors and teachers, after school hours in the library, academic help sessions and tutoring. The core values, beliefs, curriculum, extracurricular programs, and highly qualified staffing are reflected in this report. This can also be seen in the at the end of this letter of our Core Values & Beliefs, which was created during our NEASC self-evaluation from 2013-2015. Several initiatives that are supported by our learning community are described below, and positively impact students from both the academic and technical schools.

Academic Support Programs:

Tantasqua administrators, teachers and counselors do an extensive job tracking and monitoring its at-risk student populations. Beginning freshmen year, in coordination with a dedicated freshmen counselor, students are monitored for academic success from the first day they enter our building. In addition to this, guidance counselors work with teachers in placing at-risk students on bi-weekly progress reports so that students stay on track for graduation. These efforts, supported in this budget, have resulted in TRHS having one of the lowest dropout rates in the state of Massachusetts, annually now below one percent.

Some of the aspects of the Academic Support Program that have proved to positively impact our students include:

- Instituting a mandatory help session program and Saturday School program aimed at holding students accountable for incomplete work that prevents them from failing classes
- Increased communication with Parents and Guardians including the Remind App, Goggle Classroom, and bi-weekly progress reports from guidance.
- Student-teacher ratio remains at a manageable level to ensure high quality instruction in a supportive environment.
- Encouraging all freshmen to become invested in the school community by becoming members of at least one athletic team, music group or club.

In addition to these supports, this budget funds the high school faculty's goal of spending professional development time working at incorporating Social Emotional Learning (SEL) strategies into their lessons so that we are better supporting the whole child in the classroom.

SEL skills help students become more self-aware of their strengths, the ability to self-regulate emotions and behaviors, as well as learn how to navigate and improve social relationships.

Student Health & Wellness:

The Bridge Room is a place to assist students with their transition back to their classes after being absent for a lengthy amount of time for medical or mental health reasons. Some students are recovering from major surgeries or serious illnesses, others are grieving for their family members who have recently passed, and other students are struggling with depression, anxiety, suicidality, and/or self-harming behaviors. While in the Bridge Room, students receive academic, medical, and counseling support daily from staff before gradually returning to their regular classes, a process that can span days or many weeks. The room is located next to the nurse's office so that students with medical concerns can receive the attention they need. The Wellness Room is located in a small room off the library, that allows students with anxiety and difficulties with interpersonal skills to have the opportunity to improve their SEL and coping skills, mindfulness habits and de-escalation strategies with supportive staff.

Extracurricular Activities:

Thanks in large part to our budgetary commitments; Tantasqua Regional High School continues to offer a wide variety of extracurricular offerings in athletics, performing arts and more than 50 clubs at no cost to families. These can be seen annually with our award winning Showchoirs on stage, the Marching Band in parades, or our athletic teams in state playoff games. However, we insist that these extracurricular activities be balanced with the understanding that academics are the priority and that civic involvement is encouraged. For example, all staff understands that student-athletes must attend needed academic help sessions before having a team practice. In addition, each team participates in some type of community service activity each year. Some examples of recent community service projects include team hosting free youth clinics and "Youth Nights" where any children are admitted to games free if they wear Green & Gold and are allowed onto the field to welcome the varsity teams before games. Our volleyball and lacrosse teams coordinate with local youth groups in hosting annual "Coaches Against Cancer" nights. Our football team annually assists in the landscaping and clean-up at the senior centers and public buildings. We have over 50 clubs and activities, many of which perform community service annually including: Be Good to People, Relay for Life, Recycling Club, and Project Purple.

AP Honor Roll:

TRHS was recently awarded the distinction of being named to the national "AP Honor Roll" for the third time for expanding opportunities and improving the performance for AP students. Over the past 10 years, the principal and curriculum supervisors have promoted increasing the number of AP courses offerings as well as increasing the number of students enrolled in AP courses. In 2017, due to student demand, we added AP Music Theory to our course selections, giving us a total of fourteen AP courses. These courses are offered in an effort to challenge students, to provide rigorous academic opportunities, and in an effort to help our student body gain admission to more competitive colleges and universities as well as increasing the chances for academic grants and/or scholarships. There is no question that today's competitive colleges and universities expect our students to have enrolled in AP classes. This budget continues to support this initiative. The results have proved positive as the Class of 2018 was awarded approximately 150 scholarships from 80 different organizations. In addition, the qualifying number of AP scores has increased dramatically. According to Mass Insight, our grant partner, Tantasqua has some of the best scores in the state! More importantly, students seem more willing to stretch their abilities in more challenging courses knowing that they will receive individualized attention in manageable class sizes.

Conclusion:

Tantasqua prides itself on providing its students with a variety of programs and opportunities, with our greatest mission being that of ensuring that our students have many pathways to success upon graduation. Tantasqua is an academic, civic, and social community that thrives on providing all students the opportunity to succeed in an environment that is safe and supportive. With the current initiatives such as increased AP enrollment, curriculum re-writes, the Academic Support Program, and extracurricular activities, budget support will allow us to keep moving progressively forward. This budget allows this institution the ability to fully prepare all of its students for their future colleges and careers.

Tantasqua Regional High School

Our Core Values & Beliefs

Tantasqua Regional High School is a vibrant learning community seeking to inspire and prepare every student to achieve academic, social, and civic excellence. We provide students of diverse interests, abilities and goals with a variety of meaningful and challenging pathways for achievement in a safe and healthy environment. As a learning community, we value...

COMMUNICATION

Students will...

- Learn to interpret, evaluate, and synthesize information
- Communicate effectively through oral, verbal, nonverbal, and artistic forms
- Utilize media and technology appropriately to both gather and share information

RESPONSIBILITY

Students will...

- Contribute responsibly and respectfully to their community
- Accept accountability for successes and failures
- Make decisions in an honest, ethical, and respectful manner
- Display tolerance and understanding in our multi-cultural world

EDUCATION

Tantasqua will...

- Engage students with educational pathways and choices consistent with their interests, abilities, and goals
- Offer a challenging, well-rounded education, which reflects state and national standards and skills consistent with demands of the 21st century
 - Establish a learning environment that promotes collaboration
 - Foster the skills necessary to identify, define, and solve complex problems
 - Communicate ideas through effective inquiry, writing, speaking, and calculation
 - Provide opportunities to understand and appreciate other nations and cultures
