

# **Community Wellness Information Sessions**

---

The Community Wellness Series was designed to educate parents and community members about current health issues affecting adolescents. Each community wellness session was designed to deliver the most recent knowledge in a concise manner that is easy to understand. Each session will begin with a short presentation followed by an opportunity to dialog with a panel of experts. In addition, local agencies will be available as resources should parents and community members require more specific information. Please join us for these important learning opportunities.

***All Community Wellness Information Series events are for adults only unless indicated. Each topic is specifically designed for parents/guardians and community members. We are sorry for any inconvenience.***
